Powering Up Your Business Intelligence

BUSINESS INTELLIGENCE is only as reliable as the foundation upon which it is built. From the design of the foundation through construction to warranty, we help you get the job done. We have been Certified SAP BusinessObjects consultants since 1994, with experience dating back to version 3.11 and able to lead you through migration to XI 3.1 and beyond.

TRANSACTIONAL Ad Hoc UNIVERSES, DATA MARTS, DATA INTEGRATOR, SDK, DASHBOARDS, STRATEGY

As experts with IBM, Oracle and Microsoft database and application development technologies since our founding in 1985, we've been intimately involved with these products and their use with SAP BusinessObjects since earning our title as SAP BusinessObjects certified consultants in 1994. From Heineken to Guinness, Honda to Ford, Dannon to Pepsi, Wyeth to Bayer, we've grown roots strong and deep, integrating our custom software work during our rise to leadership in Business Intelligence solutions. Along the way we've been consistent in our objective — to develop long-term relationships with our customers and partners by providing high-quality solutions for a fair price.

WHAT DO OUR CUSTOMERS SAY?

"I would just like to thank you and your team for the tremendous effort you have put towards Heineken. I truly feel that Chateaux has added a tremendous amount of value in the overall development of reporting, data development, data strategy, and overall business planning development under your leadership. We at Heineken truly appreciate all your efforts. You guys are getting the "Green Heart" and there is nothing better than that."
